

# Title fo Practice:

## Waste for Best

### Objective of the practice:-

In higher consumer based society, purchasing capacity and options are increasing with time. It is easy to reject or throw away things when they are not in use. Teaching the students about the value of things we need to inculcate best out of waste ideas.

There are two ways to do that: one is recycling and upcycling. Recycling means changing the products entirely to a new one . Like turning old paper into a new one. On the other hand upcycling is the way to upgrade the exciting products. To change its usage or from. This encourages eco friendly decoration at colleges and homes, the workplace as well. This blog has listed best out of waste ideas for students.

- \* Craft paperweight
